House Permanent Select Committee On Intelligence (HPSCI) Members
Capitol Visitor Center HVC-304
US Capitol Building Washington, DC 20515-6415

Dear HPSCI Members,

My name is Ryan Charles Lingo; I previously worked as a contractor for Leidos Inc. operating under the Federal Aviation Administration within System Security Operations (AJR-223) Automation Support and the Office for the Director of National Intelligence. I am writing to disclose information regarding increasing Unidentifiable Anomalous Phenomena (UAP) reports as well as ongoing monitoring efforts being completed within the United States Air Force.

In the year 2022, during both Summer and Fall seasons, there were statistically significant increases in UAP reports being made to the Air Traffic Control System Command Center (ATSCC); This increase deviated greatly from historical norms. Because of the growing number of reports, I successfully completed prototyping a system that would monitor UAP activity utilizing 3D technologies.

I was going to disclose this information at a geography conference in Summer 2023, but was not able to because of actions taken by the US Air Force and Leidos Inc. These actions not only threatened my life and safety but also involved the wrongful use of a disability to undermine my credibility and conceal their misconduct. I am asking for whistleblower protections because of the continued intimidation and threats against my life and my families.

With gratitude and appreciation,

A handwritten signature in black ink, appearing to be "RL", enclosed within a large, loopy circular flourish.

Ryan Charles Lingo
